

Yussie's Toy Reviews

The TOUCH GAME This game will be loved by all kids of all ages because it is so much fun. The main point of the game is to collect as many pieces as you can to complete sets and earn cards for double points. The way you collect cards is by collecting all the pieces on the card from the base, which is covered and you have to feel for your piece within 30 seconds, if you get it you keep it but if not then the next person goes. The other players are entertained watching each other through the observation window as they feel for the pieces. So its a race to finish as soon as possible and collect as many as you can. The one with the most cards win!! we gave this game three a half stars for its competitive value

These games are available at independent specialty retailers, as well as <http://www.museumtour.com>, <http://www.youngexplorers.com> or www.thetouchgame.com
