

Race Your Way to Learning

The 'new' Touch game

Let your fingers do the walking - or grabbing, as the case may be - in this fast-paced game of sensory perception and memory. You'll build a better brain while you collect 49 playing pieces using only your sense of touch. Fun facts on the game cards teach you about everything from the Eiffel Tower to penguins to planets. Kids of all ages will take to the cool spaceship design with lighted observation area. Includes innovative play container with a 'No-assembly' format, lighted observation window, built in timer and self-adjusting hand opening. For 2 to 6 players. Imported. Made in China.
